## L a b o r a t o r y & M e d i c a l L a b e l s

Whether you are focused on admissions, pharmacy, or laboratory applications, the clarity and accuracy of your printed label output is critical to your operations.

When you use high quality MEDITECH and Cerner compatible labels, your printing is worry-free allowing you to focus on what really matters, your patients.

Manufactured using premium grade direct thermal label materials, our MEDITECH and Cerner compatible laboratory labels are designed for optimum performance in your Datamax printer. Featuring specialized thermal coatings, near IR capabilities and glove-friendly adhesives, our MEDITECH and Cerner compatible product line provides the industry leading performance and quality you need.

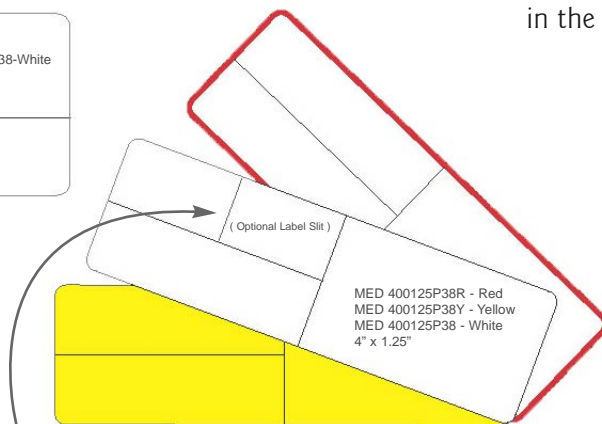

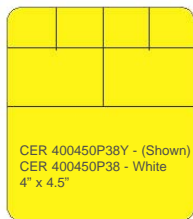

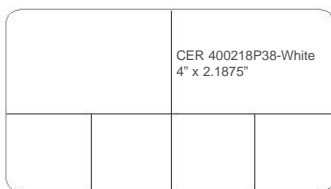

Datamax thermal bar code printers are trusted in mission critical applications at hundreds of hospitals throughout the world. Known for their industry leading performance and reliability, Datamax printers are setting the standard for healthcare bar coding.

Don't have a Datamax thermal bar code printer? Our MEDITECH and Cerner laboratory labels and customized admissions and pharmacy labels are compatible with most thermal printers available in the market today.

Winco ID specializes in innovative bar code and labeling solutions to keep you in compliance, work efficiently and provide the best quality patient care.
